

To whom it may concern:

This comment is to express three issues.

First, K-LOVE, a radio station often heard on FM translators, is extremely important to me, and taking such translators off the air would be devastating. K-Love serves me as a resident of TN by providing a positive and encouraging radio station that is entertaining and informative.

Secondly, our community would not be able to keep informed on the local and national news stories that only K-LOVE provides. The effect of K-LOVE being forced off the air would be a tragedy.

Finally, the service provided by K-LOVE is of public interest because it provides music, announcements, and news coverage that are not provided any where else on the radio or television.

Thanks for your time,
Heather Mitchell
